

# Optimise environmental performance with ISO 14001

## ENVIRONMENTAL MANAGEMENT SYSTEMS

ISO 14001 Environmental Management Systems addresses one of the biggest concerns for communities worldwide. The system sets out the criteria for an effective environmental management system, through which an organisation will fulfil its higher moral responsibility to protect Mother Earth, while achieving financial savings through more efficient use of resources and waste disposal. With awareness of environmental problems on a high across the globe, organisations with demonstrated compliance and commitment to ensuring good environmental practices are gaining more support from consumers and communities.

ISO 14001 can be used by companies and organisations, of any nature or sector, that require a practical tool to manage their environmental responsibilities. The environmental management system can provide assurance to the company's management and employees as well as external stakeholders that environmental impact is continually being properly managed, measured and improved.

ISO 14001 contributes to the UN's Sustainable Development Goals (SDGs), specifically:

- Goal 1: No Poverty
- Goal 2: Zero Hunger
- Goal 3: Good Health & Well-Being
- Goal 4: Quality Education
- Goal 6: Gender Equality
- Goal 7: Affordable & Clean Energy,
- Goal 8: Decent Work & Economy Growth
- Goal 9: Industry Innovation & Infrastructure
- Goal 12: Responsible Production & Consumption
- Goal 13: Climate Action
- Goal 14: Life Below Water
- Goal 15: Life on Land

An effective Environmental Management System will:

- Increase cost savings through optimising use of resources, energy consumption and waste management
- Improve environmental performance by reducing environmental impact of business operation and controlling environmental risks
- Demonstrate commitment and ensure compliance with applicable statutory and regulatory requirements such as the Environment Quality Act 1974 (Act 127)
- Increase organisational efficiency, effectiveness and profitability through continual process improvements
- Enhance corporate image and branding and improve access to global markets

NIOSH Cert aims to create impact

# collaboratively

NIOSH CERTIFICATION SDN. BHD. (NIOSH Cert) is a leading national certification body and a wholly owned subsidiary of the National Institute of Occupational Safety and Health (NIOSH), and the Ministry of Human Resources, Malaysia.

We have a proven track record of delivering reliable and comprehensive assessments, in conformance with the relevant international standards, codes of practices, guidelines and rules and regulations.

Since 2004, NIOSH Cert has been a collaboratively partner in the ISO Certification journeys of Malaysia's most successful companies, government bodies, higher learning institutions and SMEs. We have helped clients create impact and give value to the world's communities through providing internationally-recognised certification services.

It is our passion and privilege to be the trusted, reliable and transparent partner in helping our clients increase the efficiency and effectiveness of their businesses operations. Testimony to NIOSH Cert's emphasis on customer satisfaction, our top 10 clients have been with us for an average of 10 years.

## OUR COMMITMENT

NIOSH Cert's business practices are safe, responsible, impartial, and transparent in accordance with our Core Values and ISO 17021 Principles.
