NIOSH CERTIFICATION

Enhance credibility globally through supply chain traceability with

MSPO SCCS

MSPO SUPPLY CHAIN CERTIFICATION STANDARD

The Malaysian Sustainable Palm Oil-Supply Chain Certification Standards (MSPO-SCCS) covers management requirements and traceability of palm oil production throughout its supply chain - from raw materials to processing to manufacturing of palm oil and palm oil-based products. The MSPO-SCCS aims to deliver confidence and credibility to customers and end users that the palm oil raw material originates from sustainably-managed oil palm planted areas.

This MSPO-SCCS examines the roles and responsibilities of the parties in enabling the traceability of all activities throughout the palm oil supply chain. It discusses requirements for a Supply Chain Management System, including a Sustainability Policy, management representative, record-keeping, operating procedures, internal audits and management reviews. It also looks at resource management, traceability, as well as claims, complaints and grievances.

Implementation of the MSPO-SCCS is mandatory for all palm oil processing facilities, as part of the Malaysian government's commitment to ensure production of certified sustainable palm oil.

MSPO Standards contribute to the UN's Sustainable Development Goals (SDGs), specifically:
Goal 2: Zero Hunger
Goal 12: Responsible Consumption & Production
Goal 13: Climate Change
Goal 15: Life on Land

An effective Supply Chain Management System will:

- Provide endorsement on the credibility of palm oil products through transparency and traceability of sustainable practices – its management and implementation throughout the supply chain of palm oil production
- Address consumer expectations and demands related to sustainable production of palm oil products
- Demonstrate commitment and ensure compliance with the Malaysian government's direction, which is aimed at elevating the reach and credibility of the sustainable palm oil industry
- Increase organisational efficiency, effectiveness and profitability through continual process improvements
- Enhance corporate image and branding, and improve access to global markets

NIOSHCert aims to create impact
collaboratively

NIOSH CERTIFICATION SDN. BHD. (NIOSHCert) is a leading national certification body and a wholly owned subsidiary of the National Institute of Occupational Safety and Health (NIOSH), and the Ministry of Human Resources, Malaysia.

We have a proven track record of delivering reliable and comprehensive assessments, in conformance with the relevant international standards, codes of practices, guidelines and rules and regulations.

Since 2004, NIOSHCert has been a collaboratively partner in the ISO Certification journeys of Malaysia's most successful companies, government bodies, higher learning institutions and SMEs. We have helped clients create impact and give value to the world's communities through providing internationally-recognised certification services.

It is our passion and privilege to be the trusted, reliable and transparent partner in helping our clients increase the efficiency and effectiveness of their businesses operations. Testimony to NIOSHCert's emphasis on customer satisfaction, our top 10 clients have been with us for an average of 10 years.

OUR COMMITMENT

NIOSHCert's business practices are safe, responsible, impartial, and transparent in accordance with our Core Values and ISO 17021 Principles.

Begin your Certification Journey

1 — START
Management / Leadership commitment

2 — ANALYSE
Initial review / GAP analysis

3 — UNDERSTAND
Build awareness & training

4 — DOCUMENT
Develop manual & procedures

5 — IMPLEMENT
Implementation & Monitoring

6 — CERTIFICATION
Audit & Management review

7 — IMPROVE
Continual process improvements
